## 1 CHANGES / ENHANCEMENTS

### 1.1 More Image Files

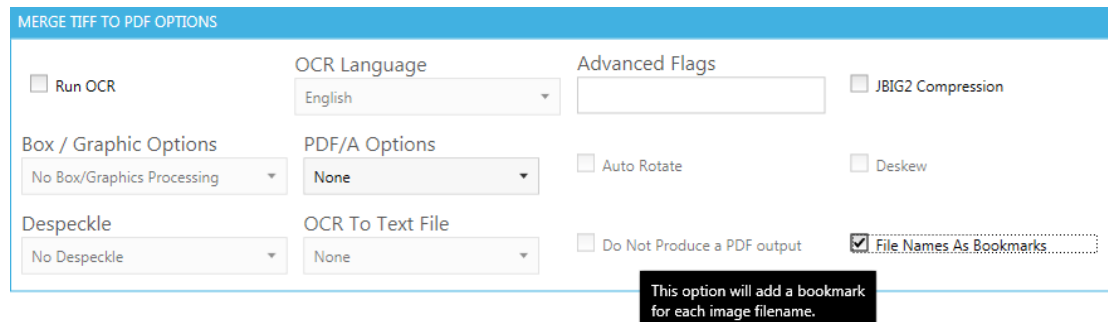

This release of TIFF Junction will include support for TIFF, JPEG, BMP, PNG and GIF file in the following steps.

- Convert TIFF to PDF has Changed to Convert TIFF, JPEG, BMP, PNG, GIF to PDF
- Merge TIFF Files has Changed to Merge TIFF, JPEG, BMP, PNG, GIF to TIFF
- Merge TIFF Files to PDF has Changed to Merge TIFF, JPEG, BMP, PNG, GIF to PDF

### 1.2 Add File Names As Bookmarks

A new option has been added to the Merge Image files to PDF step, this option will add all the image file names as bookmarks in the target PDF file.

### 1.3 Merge Image Files

The merge steps have been updated to accommodate more files types and also try to fix some bad tiff files.

## 2 BUG FIXES

### 2.1 Filenames containing .pdf

In the previous release if a file name contains the .pdf string within it an error gets thrown after the OCR is performed. This bug has been fixed.
