2.3 PDF Virtual Docs

You can now use PDF filenames in virtual xml documents.

2.4 Configurable Log File Location

The log file location can be configured by setting the value in the variable `ts_log_file` in `config.inc`.

2.5 Annotations Issue

Annotations were moving from page x to page 1, this has been resolved in this release.

2.6 Download TIFF File

Users can now download the source TIFF file, in order to achieve the variable `menu_download_tiff` needs to be set to true in the `config_ui.inc`.
